

Biological Process

***		***	oxidative phosphorylation
***	*	**	energy coupled proton transport, down electrochemical gradient
**		***	positive regulation of telomere maintenance
***		***	positive regulation of establishment of protein localization to telomere
***		***	regulation of protein localization to chromosome, telomeric region
***		***	positive regulation of protein localization to chromosome, telomeric region
***		***	regulation of establishment of protein localization to telomere
***		***	regulation of establishment of protein localization to chromosome
**		**	regulation of telomere maintenance via telomerase
**		**	regulation of telomere maintenance via telomere lengthening
**		**	regulation of DNA biosynthetic process
**		*	regulation of telomere maintenance
		***	regulation of mRNA catabolic process
*		*	positive regulation of DNA biosynthetic process
*			regulation of RNA polymerase II transcription preinitiation complex assembly
*		*	aerobic electron transport chain
*		*	positive regulation of RNA polymerase II transcription preinitiation complex assembly
		*	inner mitochondrial membrane organization
		*	positive regulation of telomerase activity
		*	immunoglobulin mediated immune response
**	**		keratinocyte differentiation
	*		cellular response to interleukin-21
	*		presynaptic membrane assembly
	**		regulation of collagen fibril organization
	**		negative regulation of collagen fibril organization
	*		purine nucleoside monophosphate biosynthetic process
	*		nucleoside monophosphate biosynthetic process
	*		ribonucleoside monophosphate biosynthetic process
***			nuclear-transcribed mRNA catabolic process
**			mRNA catabolic process
**			protein localization to mitochondrion
**			ATP synthesis coupled electron transport
**			mitochondrial ATP synthesis coupled electron transport
**			negative regulation of DNA metabolic process
**			aerobic respiration
*			mitochondrial respiratory chain complex assembly
*			fatty acid beta-oxidation
*			mitochondrial electron transport, NADH to ubiquinone
*			protein localization to cilium
*			axonemal dynein complex assembly
